Forecast for Wednesday 04 May 2022

Weather: Cloudy with periods of rain slowly easing through the morning. Mostly dry in the afternoon when bright spells increase, particularly inland across the east of the area.

Chance of cloud-free hill tops above 800m: 30%, but becoming 60% in east from afternoon.

Low cloud and visibility: Poor in cloud down to 400 to 700m in the morning. This cloud is likely to lift and break off all summits away from the coast in the afternoon. Otherwise very good visibility developing once the cloud clears.

Met Office Aberdeen Meteorologist's View
Not cold temperatures at height, notable wind chill at height

Forecast for Thursday 05 May 2022
Weather: Cloudy with rain at times becoming persistent across central and southern ranges in the afternoon when northern and eastern areas become drier.

Maximum wind: Southwesterly 25 mph

Chance of cloud-free hill tops above 800m: 20%

Low cloud and visibility: Poor in widespread cloud down to 400 to 700m which will linger for much of the day. Some occasional breaks around the Moray Firth coast and ranges close to the northern end of the Great Glen but these not expected to last very long.

Temperature: **Glens:** Plus 8 rising to 11 Celsius
At 800m: Plus 5 Celsius
Freezing level: Above summits
